ABOUT US

Advance Mining Solutions was established in 2010 as a privately owned and operated business, servicing both QLD and NSW. AMS specialise in the manufacture of underground cables and equipment. Our in-house design has been developed and proven to outlast current products on the market. Along with being completely customisable to suit our clients requirements.

MISSION

Advance Mining Solutions' mission is to provide a superior product that outlasts the harshest mining conditions, therefore reducing cost and maximising equipment performance.

WHY CHOOSE AMS?

- High performance long lasting products
- Industry qualified personnel that are experienced in both design and manufacture
- Driven to consistently improve current products and help reduce down time
- Customisable to suit client requirements
- Rugged design to last the distance
- Inhouse build to reduce lead times
- Registered Australian Made company
